

October 10th-14th

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
<p><b>Lesson Objective:</b> I can solve multi-step equations. I can define absolute value.</p>	<p><b>Lesson Objective:</b> I can evaluate expressions using absolute value. I can solve absolute value equations.</p>	<p><b>Lesson Objective:</b> I can solve inequalities. I can solve, graph, and create one-step inequalities.</p>	<p><b>Lesson Objective:</b> I can solve, graph, and create multi-step inequalities.</p>	<p><b>Lesson Objective:</b> I can solve, graph, and create multi-step inequalities.</p>
<p><b>Instructional Activities</b> 1) Warm-Up // Homework Check 2) More practice with Two-Step Equations 3) Guided Notes - Absolute Value (Part 1) 4) Practice with Absolute Value</p>	<p><b>Instructional Activities:</b> 1) Warm-Up // Homework Check 2) Go over quizzes 3) Guided Notes - Absolute Value (Part 2) 4) Practice with evaluating absolute value equations</p>	<p><b>Instructional Activities:</b> 1) Warm-Up // Homework Check 2) Guided Notes - Inequalities 3) Practice Graphing and Solving Inequalities</p>	<p><b>Instructional Activities:</b> 1) Warm-Up // Homework Check 2) Error Analysis Practice - Inequalities 3) Guided Notes - Solving Multi-Step Inequalities 4) Start Practice with Multi-Step Inequalities</p>	<p><b>Instructional Activities:</b> 1) Homework Quiz (10 minutes) 2) Finish Practice with Multi-Step Inequalities and Go over Solutions 3) More Practice with Multi-Step Inequalities</p>
<p><b>Homework:</b> None!</p>	<p><b>Homework:</b> Finish Practice with Evaluating absolute value equations</p>	<p><b>Homework:</b> Finish Practice with Inequalities</p>	<p><b>Homework:</b> None!</p>	<p><b>Homework:</b> Finish Handouts from class</p>
